

## Space Horn

1 Million

The space horn is a free bonus technology that can be added to the mineral deck giving Rocks For Sale greater variety and playability.

The space horn allows a captain to ignore the rule that a ship that is towing may not enter the space of another ship that is towing. It does not allow other towing ships without a space horn to move into the space occupied by your towing ship. In addition it may be sold at the fuel station for 1 Million.
